WNTC Broadcasts

Variety Of Shows

Campus radio station, WNTC resumed broadcasting last week on the largest scale in history. With well over 80 active members the station is now operating on a five-day, six-hour basis. The program schedule is made up of one hour's air time in the morning and from six until twelve at night. Students are informed that from 10-11 each evening a request program is featured. Going under the title of "Requestfully Yours," the program will allow students to call the station and have recordings of their choice played or dedicated. The station phone is 2770 and requests may be called in and accepted any time after 7:30 p. m.

Clarkson and Potsdam State campus news is also being presented this year and students interested in keeping up on college happenings should tune in at 640 on your dial every Tuesday at 8:15 p. m. Another featured program is "The Cave", with air time every Wednesday evening at 9:30. Presenting the ultimate in modern music in an eerie atmosphere it should provide interesting listening for students.
